

## How To Determine The Version Of The ADPRTXTB File

The ADPRTXTB file holds the Federal and State tax tables in a format you can access and transfer through Payroll program 58. As we learn of changes to these tables, we make an updated copy of this file available on our website. When the Tax Transfer option of Payroll program 58 is selected, the version of the file displays as shown.

Tax Transfer    Quit    GoTo

02

**After selecting Tax Transfer, the Current Version appears.**

From Table Number	..... (R=Roll)
To Deduction Table Code	
Current Table Version Number	4.23

Table	Descript
